TotalFlow PrintCopy Tool

Makes bulk printing
of drawings easier to manage

PRINT TOOL FOR SAVING TIME AND LABOUR

Print Tool greatly reduces the time and effort required to print large quantities of drawings and documents for submission to the authorities, delivery to customers or for meetings.

FEATURES

- Enables batch printing of multiple documents as one job
- Range of settings include: File selection, print preference, automatic selection of the output device, saving and loading of print jobs, reprinting of printed files and date stamping
- Supports various formats such as GL/GL2, RTL, TIFF, PDF, Calcomp, WMF, BMP, JPEG, CALS and PCX. Plus optional support for DXF, DWF and DWG file format for Autodesk's AutoCAD
- Previous reprint print data. No need to re-input data, just set the number of copies you wish to print

- Automatic selection of the most suitable device - whether a Ricoh MFP or third party plotter
- Preview and Drag&Drop function for ease of use
- Reverse Order Printing for output flexibility

COPY TOOL FOR COLOUR COPYING OF DRAWINGS AND MAPS

Copy Tool links the wide-format Ricoh MFP with a colour plotter for colour copying of revised drawings, maps with colour photos, etc.

FEATURES

- Wide format colour copy: Colour scan on MFP for direct output with an injet plotter
- Easy-to-use operation panel: No need to use a PC. Simply select the output device, number of copies and the magnification ratio on the operation panel of the wide-format MFP
- Image editing: Automatic tilt correction, under colour removal, dust removal and format conversion are available (JPEG/TIFF/PDF)
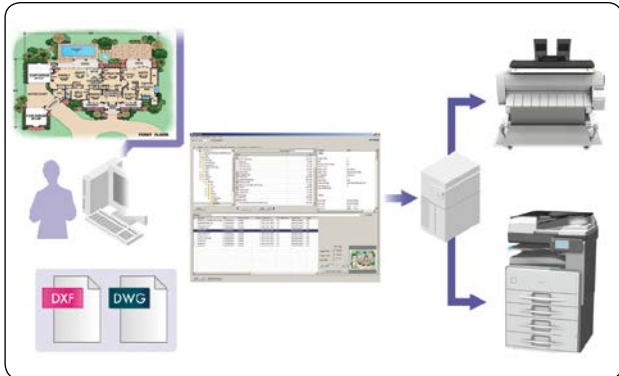

TotalFlow PrintCopy Tool

MAIN SPECIFICATIONS
